OUR SUCCESS HAS TOUCHED NEW HEIGHTS WITH QUALITY, EXPERTISE AND RELIABILITY.

SCALING HEIGHTS OF QUALITY
ALUMINIUM ROLLED PRODUCTS

ABOUT COMPANY

We are having two manufacturing plants named “Jagdish Aluminium Pvt Ltd” & “Vishal Auminium Pvt Ltd”. We are the leading manufacturers and exporters of Aluminium Rolled Products in India from last 35 years.

Our quality Aluminium Rolled products conforming to the specification and needs of the customers. The Aluminium Rolled Products range from 4mm thickness to 0.009mm (9 microns) and in width from 965mm to 9mm with Annual Capacity of 24000 MT.

Our core competency is the manufacturing finest Quality Aluminium Rolled products with Consistence quality, we use Prime Quality DC route materials only with Prompt delivery and most transparent rate policy.

WHY CHOOSE US?

We are committed to being innovative and to achieve excellence in satisfying all our customer's needs by providing competitive products of unsurpassed quality at most aggressive costs with transparent rate policy and timely delivery. We keep on shaping ourselves according to the latest technology of perfection, growth and development. We have a sound infrastructure equipped with latest machines and equipments. Through team work, motivation, innovation and training we aim to provide ultimate customer satisfaction as our quality has bonded us with the customers and propelled us into leadership. We are backed by young and experienced workforce with good technical knowledge.

USP

- 100% DC route aluminium for all specialized Rolled products. We do not use CC route materials for any products.
- Carrying huge stock to supply speediest delivery & no shortage during unavailability of metal. Smooth supply through-out the year.
- Flexible in pricing policies.
- Prime quality consistence supplies.
- Fully equipped Laboratory.
- Inhouse workshop for all major maintenance.
- All expert experience team with average stability more than 15 years.
- Stability and reliability in market from last 35 years.
- 100% traceability with Unique ID batch numbers of all materials and process.

VISION

To be a world's most admired company that consistently defines the leading standards in our business, making our customer / supplier and team proud to be associated with us.

MISSION

To chart a growth process in a way that is sustainable, diverse, efficient, a responsible and follows value-based business.

VALUES

- Entrepreneurship
- Commitment
- Integrity
- Excellence
- Speed

PLANT FACILITIES & CAPACITY

Our plants are equipped with 7 sophisticated Four Hi Reversible Cold/Foil Rolling Mills with online Auto thickness measurement and complete auto controls of Siemens & L&T.

Along with we have 8 electrical Annealing Furness, 5 Multi-slitting lines, 1 Narrow slitting line, 3 trimming lines, 5 CTL, 1 Lamination & Heat-press machine, 1 separator line, 2 oscillation lines, 1 color coating line, 5 filtration plants, 2 Roll grinding, All maintenance inhouse equipments like lathe – power press – drill – welding - hack-saw, cooling towers – Air compressors – Bailing presses, etc. The full-fledged laboratory for physical & mechanical testing ensures the supply of consistent quality to the utmost satisfaction of customers.

Current installed capacity is 24000 TPA for Aluminium Rolled products.

We ensure product quality by using state-of-the-art equipments and research and R & D, supported by dedicated and motivated employees, which in turn ensures quality finished products.
